## Contents OPTEC5 Calibration Data Package

### Section 1 Summary

|  |                    |   |
|--|--------------------|---|
| 1.1 Sciamachy PFM calibration Key data | RP-SCIA-0000TP/275 | 1 |
|--|--------------------|---|

### Section 2 Plan

|   |                    |   |
|---|--------------------|---|
| 2.1 Onground implementation of the Sciamachy Calibration Plan | PL-SCIA-0000TP/110 | 1 |
| 2.2 Calibration approach adapted to polarization anomaly      | TN-SCIA-0000TP/182 | 1 |
| 2.3 How to generate phase shift corrected Greek keydata       | IFE-TN-211299      | 1 |
| 2.4 Sciamachy calibration error budget                        | RP-SCIA-0000TP/225 | 2 |

### Section 3 Logsheets

|   |
|---|
| 4.1 Sciamachy calibration measurement logsheets |
|---|

### Section 4 Results

|  |                    |   |
|--|--------------------|---|
| 5.1 Polarization calibration   | RP-SCIA-1000TP/272 | 1 |
| 5.2 Straylight calibration   | RP-SCIA-1000TP/271 | 1 |
| 5.3 NDF calibration  | RP-SCIA-1000TP/273 | 1 |
| 5.4 Radiance/Irradiance calibration (outstanding: expected 2-1-2001) | RP-SCIA-1000TP/274 | 1 |
| 5.5 Wavelength Calibration of the SCIAMACHY PFM                      | RP-SCIA-1000TP/266 | 1 |
| 5.6 Slit Function calibration of the SCIAMACHY PFM                   | RP-SCIA-1000TP/267 | 1 |
| 5.7 White light reference spectrum                                   | RP-SCIA-1000TP/268 | 1 |
